

Please discuss these activities with your child and support them where necessary. If you are unsure about any or need resources, please ask.

**Due back:**

by 21st March

## Funny Bones

**Bone Measuring!** We want you to find out who has the shortest or longest arms and legs in your family! Your task is to measure the length of your arms and legs using non standard (feet, hands, lego bricks etc) and standard measures (cm). Then, record the information ready to share to the rest of the class. For example : Toby's arm measured 15 Lego bricks long and 34 cm long.

### Skeleton Making

We want you to design and make your own replica of a miniature human skeleton and bring it into school to share with your class. To make your skeleton you could use straws, pipe cleaners, twigs or a drawing, the choice is up to you.

### Food Diary

For our bones to be strong it is important we include calcium in our diet. Milk is a good source of calcium. Your task is to keep a food diary that shows every time you have milk .

### Story Time

We are enjoying reading books written by Allan Ahlberg this half term. Your task is to read a variety of his books and write a book review to recommend the book to a friend. In the book review you could include; the characters, your favourite part of the story or an illustration you like.

### Animals Facts

Your task is to choose an animal and research information about its bones. You could draw a picture of the animal and label it with interesting bone facts.
