

# Y1 Funny Bones

(4 Week Topic)

## Introduction and rationale

The children will gain an understanding of the makeup of the human body. This topic focusses mainly on **Scientific** objectives but will be linked to recording findings and ideas in the **English** curriculum. Children will be learning the names and basic functions of parts of the human body and the five senses. Children will also explore the importance of healthy eating and living.

## Key Objectives

1. Identify and name basic body parts
2. Name and know the five senses
3. Understand the importance of healthy eating

## Learning Focus

In this section there are ideas for inspirational hooks to learning and activities to continue engagement in the subject and create links across the curriculum.

- Know the major bones in the human body.
- Find out how to keep your bones strong.
- Learn to identify and name organs in the human body, and be able to locate them (Heart, lungs and brain)
- Explore the senses of seeing and hearing.
- Invite the Blind Society in to work with the children
- Understand what *Healthy Eating* means
- Explore the senses of smell and taste.
- generate questions to ask the school nurse

## Cross curricular links

- Science- exploring the human body, naming parts of the body and their functions
- PSHE + C – what it means to be healthy – mind and body.
- Art and design /PE – create shapes the body makes during activity
- English – opportunities to write information reports, labelling diagrams, create posters

## Assessment Opportunities

- I can identify the basic parts of the body
- I can name the basic parts of the body
- I can draw and label basic parts of the body
- I can say which part of the body is associated with each sense
- I can suggest ways to be or keep healthy
- I can ask questions about the body
