

Home Learning – Year 2

Where Do I Live?

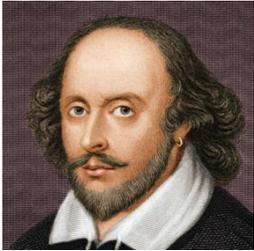

Please discuss these activities with your child and support them where necessary. If you are unsure about any or need resources, please ask.

Due back before:

Friday 10th February

Design your own home

If you could live in any house what would it be like? We want you to design your dream home. Will it be built on stilts over the water? Will it be a house made completely of chocolate? Your house can be anything you want it to be! We are looking forward to looking at the home designs you create.

Talking point

We want you to find out about the differences between your life and grandparents or parents lives. Talk to your parents or grandparents about the differences and similarities. Did they play video games or collect action figures/cards? What do you think life was like for them compared to how you live now? We look forward to hearing some interesting stories!

Architectural Art

We would like you to research different pieces of art work involving buildings. Which artists can you find? Which is the oldest piece of art work you can discover? We would love to see your own drawings too, whether you copy one already painted or you draw your own house.

Millfields Detectives

You have made excellent detectives so far this year and we have found another mystery for you to solve. Do you recognise this statue? This statue is located in the Bromsgrove area. Can you find him and tell us who he is? What was he famous for? Where did he come from? Where can you find his statue?

Walking Maths

How far is your house from school? You could count the steps, count the miles or the metres to see how far you travel every day. Why not try different ways to school to see which is the shortest. You can display your results anyway you like. We look forward to hearing about your findings!
